

Windsor agreed to meet every Monday at 8:30 on Zoom

<https://comp-4882-cis.github.io/CIS-FRONTEND/>

-website

1. How do you run the website/what do we need to edit it/run it
 - access the website through the link, would like a nicer domain/linked to Commissioner's website
2. What is your top priority in adding to your existing project/ what do you want us to get done the most
 - <https://webgisr.mlgw.org/mlgwwaterservices/>
 - feature for lead poisoning/functional display of lead presence in the county-green/yellow/red- extra lead tab
 - covid data table
 - missing children- data.memphistn.gov
 - heatmaps
 - nav bar-mirror above website
 - template for impact statement
 - individual kids per house
 - new domain
 - demographics
3. What features do you think are user-friendly/what user-friendly specific features do you want us to have
 - <https://datacenter.kidscount.org/>
 - view multiple indicators at a time
4. What additional features, besides top priorities, or any specific features
 - heat maps for places that kids go missing from/ lead
5. Is there any websites that you think look nice or are user friendly that you want us to model it after
 - <https://datacenter.kidscount.org/>
6. What do you want to the final product look like
 - download reports, export as pdf
 - download heatmap

7. What features do you think are most important to shelby counter commissioners, what do you think they would be impressed by, how does this affect what they do/what do you want convince them of
-how many children would get displaced
