Child Impact Statements

About Us Write an Impact Statement Shelby County Commissioner Office

About Us

Child Impact Statements are a way for children to share their thoughts and feelings about the impact of a court case on their lives. This is a chance for children to be heard and for their voices to be taken into account by the court. The process is designed to be safe and supportive, and children are encouraged to express themselves in their own words. The court will consider the child's statement along with other evidence in making its decision.

Child Impact Statements are a way for children to share their thoughts and feelings about the impact of a court case on their lives.
